Why Portfolio Deutsch NEU?

This updated textbook series was designed and developed in Germany especially for U.S. High Schools. PD NEU actively involves students in their own learning. With Level 1 instructions and grammar explanations in English, students can jump immediately into practice with a wealth of activities and exercises.

Students begin communicating on day one with a focus on self-expression, starting with introductions, speaking about oneself, one's family, friends, and immediate environment. Students then branch out into sports, the internet, clothing, etc. Texts and dialogues increase in complexity and sophistication and entice students to venture out into the world of German on their own. The series covers AP® themes, tasks and Interdisciplinary/STEM content.

What is NEU?

- Comprehensive testing program, with quizzes, skills-based chapter tests, and IPA unit tests
- Teacher's manual with suggested daily lesson plans
- Improved chapter organization with Classwork followed directly by Mehr üben activities
- · Audio and video materials accessible online and via Klett Augmented
- Brand new content in the Trainings aligned to AP® performance tasks and the National German Exam

AP® is a registered trademark of the College Board, which is not affiliated with, and does not endorse this product.

Eine Tradition in Deutschland

1 Der Schulanfang

a Lest Doras Text. Welches Foto ist die Schultüte? Diskutiert zu zweit.

Oma hat Jannik eine Schultüte geschenkt.
Eine Schultüte ist typisch deutsch! Am ersten Schultag bekommen Kinder in Deutschland eine Schultüte.
Die Eltern oder die Großeltern kaufen oder basteln sie.
Eine Schultüte hat viele Farben. In der Schultüte sind oft Süßigkeiten, kleine Geschenke – und Schulsachen.
Mit einer Schultüte feiert man den Schulanfang!

Newly re-written Trainings seamlessly incorporate interdisciplinary and STEM content as well as tasks aligned with AP® German and the National German Exam.

b Beantwortet die W-Fragen in Stichworten. Diskutiert dann in der Klasse.

Wer?	Wo?	Was?	Wann?	Warum?
		basteln oder kaufen eine Schultüte	vor dem 1. Schultag	
Kinder	Deutschland			

- vergleicht die USA und Deutschland. Macht zuerst Notizen im Heft. Diskutiert dann in der Klasse.
- 1. Was bekommen US-Amerikaner am ersten Tag im Kindergarten?
- 2. Hat deine Familie deinen Schulanfang gefeiert?

In den USA bekommen Kinder ... Ja, meine Familie
hat den ersten Tag
im Kindergarten gefeiert.
Wir haben ein Foto vor
unserem Haus
gemacht. Ich habe ...
bekommen.

2 Geometrie auf Deutsch!

Oma hat Janniks Schultüte in einem Geschäft in Sankt Goarshausen gekauft. Ihr haben zwei Schultüten gut gefallen. Sie wollte eine besonders große Schultüte haben, denn sie wollte viele Geschenke, Schokolade und Schulsachen für Jannik kaufen. Welche Schultüte hat sie gekauft: Schultüte A oder Schultüte B?

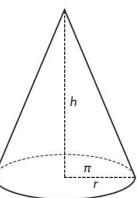

Eine Schultüte ist ein Kegel:

Der Platz in der Schultüte ist das Volumen (V).

$$V = \frac{1}{3} \cdot r^2 \cdot \pi \cdot h$$

r = der Radius $\pi = 3,14$

h = die Höhe

Schultüte A

r = 10 cmh = 70 cm

Das Volumen von Schultüte A ist cm³.

Das Volumen von Schultüte B ist cm³.

Janniks Oma hat Schultüte pekauft.

Schultüte B

r = 8 cmh = 75 cm

Right from the start in level

1, students begin to develop
these skills. As student
progress through the
series, these topics and
skills are spiraled and
reinforced, while becoming
increasingly sophisticated.
